OUTDOOR EDUCATION

"Outdoor Education."

The phrase elicits a variety of emotions when students hear it. Excitement. Nervousness. Relief. Anticipation. Regardless of how each individual approaches the 2-week period of Outdoor Education at Hillcrest, one thing is certain: it leaves a lasting impact on all who attend.

Despite the many struggles and setbacks that come with making Outdoor Education an annual event, OE is consistently the most impactful and life-changing experience we offer our high school students. Through OE, Hillcrest students learn on a deeper level about the country of Papua, the importance of faith in the face of fear, their limitations and potential, the joys of sacrificial service, leadership skills, teamwork and so much more. We at Hillcrest School believe it is absolutely worth pursuing this trip, even in the midst of Covid-19 protocols.

Through it all, we at HIS have always been committed to providing a safe and healthy OE experience to your kids. This year will be no exception (although with the Lord's leading and power, it will prove to be exceptional).
